Online Evaluations Pilot:  
EIP wants to *Go Green* with your help!

The current paper evaluation system uses over 300,000 forms and 18,000 envelopes a year – that comes to over 4,700 pounds of paper that could potentially be saved!

- Online evaluations are easily filled out by students through weeks 9 and 10 by logging into MyUCLA, freeing up valuable class time.

- Instructors are able to retrieve reports through MyUCLA shortly after finals end.  
- Each department office will continue to receive all reports on CD.

- We anticipate that the online system will be more efficient, flexible and cost less to manage in the long run.

Please help us by encouraging your students to participate in our online evaluation pilot program!
